

# XPANDAROLL

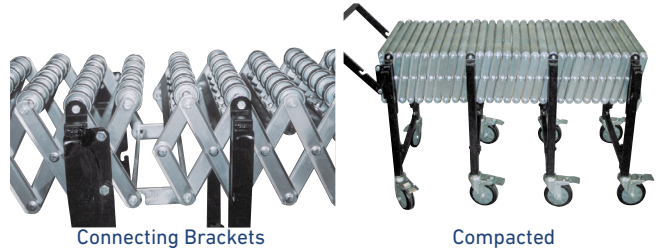

Achieve more with less - stretch and twist the Xpandaroll Conveyor to take your products wherever you need them. Cartons simply follow the twist and turns of the conveyor path without the need for side rails or engineered curves. Ideal for changeable product runs in dispatch and trailer loading and devanning this conveyor can easily be pulled out when needed then folded away for storage.

## Features & Benefits

- Robust Construction with high tensile ribbed aluminium side plates and channel spanning entire conveyor width for added strength.
- Save on valuable floor space when not in use, conveyor folds down to 1.6m.
- Build to any required length with easy clip-on connecting brackets.
- Product self-tracks with free running skate wheels guiding product.
- Adjustable height, simply turn the locking knob to raise or lower the conveyor bed height.
- Easily move conveyor around with fully lockable castor wheels

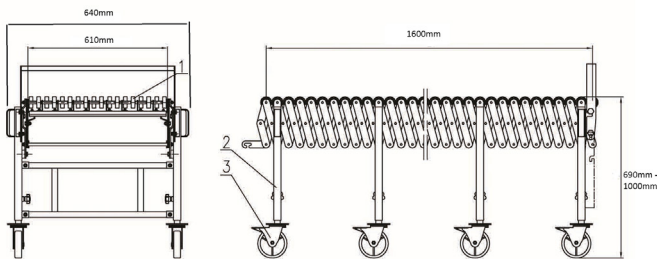

## Specifications

Total Length Expanded: 6,000mm  
 Total Length Compacted: 1,600mm  
 Working Width: 600mm  
 Height Adjustable: 690mm - 1,000mm  
 Frame Construction: High Tensile Ribbed Aluminium Side Plates  
 Stand Construction: Powder Coated (Black) Steel  
 Skatewheels: Ø50mm Zinc Plated Steel Skatewheels  
 Fully Lockable Castor Wheels  
 Connecting Brackets, easily clip multiple conveyors together  
 Max Load Rating: 250kg/m

Connecting Brackets

Compacted

1. Skate Wheel, carbon steel, zinc plated  
 2. Support leg, outside tube 32 x 32 x 2, inside tube 25 x 25 x 2, powder coated  
 3. Lockable Castor Wheel

## Common Uses

- Dispatch Areas
- Courier parcel handling
- Truck loading and devanning
- Distribution centers
- Mobile assembly lines
- Inwards Goods
